Activity Idea - Tiny Tots Sensory basket play

Babies love exploring using all their senses.

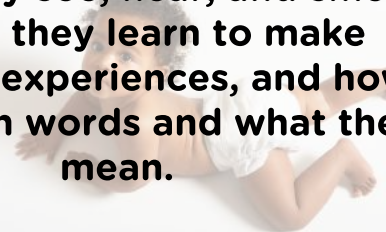

Include a variety of everyday objects that are clean and safe for baby to investigate. Talk about what it looks like and feels like. How does it move?

Can it roll or slide?

Did you know...

Talking to your child about what they see, hear, and smell is how they learn to make sense of experiences, and how they learn words and what they mean.

Activity Idea - Older Explorers Toy car paint tracks

This activity involves using a plate/tray of paint and running the car through before them pushing the car around on paper to leave tracks. It's a great activity for those who love cars but are not so interested in craft and making pictures.

Discovery time

Find out what things around the home can roll.

Why do they roll?
What shapes don't roll very well?
