## Activity Idea - Older Explorers Making a den indoors or outdoors

Children love building dens! Use blankets, throws or a sleeping bag propped up by airers or chairs. Throw in some cushions, books and board games.

Even better, let your little one work out what they need!

## Did you know...

When you provide loving, language-enriched experiences for your baby, you are giving their brain's neural connections and pathways more opportunities to become wired together.

## Activity Idea - Tiny Tots Ice cubes

Want to keep little one cool in the hot weather? Put some water in a tray and add ice cubes.

Let your little one pop their hand and feet into the water, or hold some ice and watch it melt.

Coloured cubes add a splash of colour.

## Discovery time

Find out which birds come to visit your home and garden.

Make a fat ball to entice them in to your garden.
