Our play inspiration this week:
Be an eco super hero

Harry Saves the Ocean!

Harry receives a lesson in the dangers of plastics in the ocean. He asks his friends to help clean up the beach and the sea!

Pineapple and Yoghurt

Check the website for details.

Simple and easy to put together.

Substitute with fruit that you have in the fridge.

Suitable from 6 months

start 4 life

Activity Idea - Older Explorers Junk Modelling

A great way to use your saved recycling while encouraging your child's imagination. This activity also promotes language development, planning, co-ordination and focus!

What will you make?

Did you know...

The Start for Life website has lots of useful information to guide you through pregnancy, birth and beyond. Happy reading!

Pre-loved? Pass It On

We support 'Baby Bundles'

Donate your good quality baby clothes to us and they'll go to a family in need

Look out for Freecycle sites and in your parish monthly news to let other families know that you have some good quality clothes or toys to pass on.

This will have a positive impact on the environment as less items end up in landfill.

Discovery time

As you change your child's nappy, see if they can follow your face. Following your face (or tracking) gives your baby practice paying attention and reaching their goal of seeing your face—one of their favourite sights. You're bonding with them as well as helping them learn to focus their attention, an important learning skill.
